

My Favorite Season- Winter

1. Read the text carefully.

My favorite season is winter because the weather is cold. It rains and snows sometimes. I love the snow because I like to make snowmen, have snowball fights with my friends, and ride my sled down the hills. Also I like staying indoors during the winter where it is very warm. I like to drink lots of hot chocolate when it is cold and watch TV covered with a warm blanket. I also enjoy playing computer games when it is raining. When it is sunny I like to play football with the neighborhood children. I love wearing sweaters and puffy winter jackets. And best of all my birthday is in December- so that's one big reason why I like winter best of all.

2. Writing Task: Write about your favorite season.
